DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roger Sampson (#44,314) on 19 January 2007.

The application has been amended as follows:

Claim 19 reads: A set of semiconductor processing masks representative of the interconnection controller of claim 14.

Allowable Subject Matter

2. Claims 1-26 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1 and 14 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claim 1, "at least one of the nodes in a cluster is a command-injecting node configured to receive a command via a test interface and to inject the command into a queue of commands according to the intra-cluster transaction protocol."

As in claim 14, "the interconnection controller configured to receive commands via a test interface and to inject the commands into a queue of pending commands according to the intra-cluster transaction protocol."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip Guyton whose telephone number is (571) 272-3807. The examiner can normally be reached on M-F 8:00-4:30.
